

Does your child.....

- have difficulty playing with other children?
- avoid or dislike social situations?
- have difficulty carrying on a conversation with peers and adults?
- have difficulty expressing emotions?
- have difficulty sharing and being a good sport?
- have difficulty reading social cues and/or body language?

Now there is help.

The **LEARNING AND THERAPY CORNER** will be offering social skills groups for children ages 4-6 starting July 2011. Social skills will be addressed and developed using stories, role play, free play, and interactive activities based upon the needs of the children in each group. Social skills addressed may include respecting personal space, use of social courtesies, appropriate responses to difficult situations, inviting a friend to play, being a good sport, body language, and appropriate play with peers.

Group will be held on Tuesdays from 5-6pm beginning July 5th and be held once a week for 60 minutes for 5 weeks.

If you are interested in a social skills group or have additional questions, please email bdicocco@lthcorner.com or call the LTC 410-583-5765.
